

Task P.PR

- Project Reflection
 - address briefly the following collectively as a team
 - for each part of the project separately; i.e., P1 and P2:
 - which aspect was easiest to do and why
 - which aspect was hardest to do and why
 - for each of the following, how did it contribute to your ability to do this project: Tasks 1, 2, 3 (collectively) and the status reports
 - how would you improve the API (in general) if you had made it
 - for the project overall (over the entire quarter)
 - which aspect was easiest to understand about its development
 - which aspect was hardest to understand about its development
 - how did the project contribute to your understanding of complex organized systems?
 - how are you going to avoid becoming The Cartoon in your career?
- Submitted by anyone on team

read → understand → plan → execute → verify → reflect
